

	Administrator	Writer	Reader	Contributor
Workspace				
* A workspace governs components, tags, references and it's model				
- Create	If privilege is enabled	If privilege is enabled	No	No
- Read	Yes	If given access	If granted read	No
- Update	Yes	If edit access	No	No
- Delete workspace	Yes	If granted admin	No	No
- Manage Workspace Properties & Models	Yes	If granted admin	No	No
- Read Workspace properties (name, description, created-by, etc.)	Yes	Yes	If granted read	No
- Rename workspace	Yes	If granted admin	No	No
- Reorganize workspaces in the Home page	Yes	Yes	No	No
- Manage Workspace Permissions	Yes	If granted admin	No	No
- Set organisational default write or read rights	Yes	No	No	No
- Lock component	Yes	Yes	No	No
- Unlock component	Yes	If workspace admin/ If locked by self	No	No
Folders				
- Create	Yes	Yes	No	No
- Read	Yes	Yes	Yes	No
- Update	Yes	Yes	No	No
- Delete	Yes	Yes	No	No
Manage Templates (Metamodels)				
- Create	Yes	No	No	No
- Read	Yes	No	No	No
- Update	Yes	No	No	No
- Delete	Yes	No	No	No
Fields				
- Create	Yes	If workspace admin	No	No
- Read	Yes	Yes	Yes	Yes
- Update	Yes	If workspace admin	No	No
- Delete	Yes	If workspace admin	No	No
Administration				
- Manage users	Yes	No	No	No
- Set up JIRA	Yes	No	No	No
- Set up Webhooks	Yes	No	No	No
- Set organizational default permission for workspaces, surveys, and scenarios	Yes	No	No	No
Perspectives				
Create stored perspective	Yes	Yes	No	No

	Administrator	Writer	Reader	Contributor
Delete stored perspective	Yes	If owner	No	No
Use stored perspective	Yes	Yes	Yes	No
Presentations edit mode				
*Logged-in users are required to have access to both the presentation and the underlying asset displayed on the slide to visualize it. Learn more about Presentations permissions in our KB article.				
- Create	Yes	Yes	No	No
- Update (name, description, add and delete slides)	Yes	If owner/ If the presentation's Write access is "Entire Organization" (can add slides for assets they have access to, can update slides that display assets they have access to)	No	No
- Read slides in edit mode	Yes	Yes (can only read the slides that display an asset they have access to)	If the presentation's Read access is "Use viewer's permission" or "Entire organization" user can only read the slides that display an asset they have access to.	No
- Delete an entire presentation	Yes	Yes (can delete presentations whose Write access is "Entire organization")	No	No
Presentation in presentation mode				
- Read slides in presentation mode	Yes	If owner/ If the presentation's Read access is "Use workspace permissions" can only see the slides that display an asset they have access to/ If the presentation's Read access is "Contributors with the URL" can read all the slides regardless of whether they have access to the underlying assets.	If the presentation's Read access is "Use workspace permissions" can only see the slides that display an asset they have access to/ If the presentation's Read access is "Contributors with the URL" can read all the slides regardless of whether they have access to the underlying assets.	If the presentation's Read access is "Contributors with the URL" user can read all the slides regardless of whether they have access to the underlying assets.
- Delete a slide with a discontinued view from presentation mode in a non-public presentation	Yes	Yes (can delete the slides that display an asset they have access to)	No	No
- Delete a slide with a discontinued view from presentation mode in a public presentation	No	No	No	No
Manage presentation access rights				
- Set Read access to "Only me" (non-public presentation)	Yes	If owner	No	No
- Set Read access to "Use workspace permissions" (non-public presentation) Allows admin, writer, and reader users to see only the slides that display an asset they have access to in both edit and presentation mode.	Yes	If owner	No	No
- Set Read access to "Contributors with the URL" (non-public presentation) Allows admin, writer, reader, and contributor users to see only the slides that display an asset they have access to in edit mode and allows them to see all the slides in presentation mode regardless of whether they have access to the underlying assets.	Yes	If owner	No	No

	Administrator	Writer	Reader	Contributor
- Set Read access to "Everyone with the URL" (public presentation) People accessing the presentation can see all the slides in it whether they are an Ardoq user or not.	Yes	No	No	No
- Set Write access to "Only me"	Yes	If owner	No	No
- Set Write access to "My organization"	Yes	If owner	No	No
- Disable explore mode	Yes	Yes	No	No
Scenarios				
- Create	If privilege is enabled	If privilege is enabled	No	No
- Read	Yes	If given access	If granted read	No
- Update	Yes	If owner/ If edit access	No	No
- Expand scope	Yes	If owner/ If edit access	No	No
- Delete	Yes	If owner/ If edit access	No	No
- Manage permissions	Yes	If owner/ If granted admin	No	No
Surveys				
- Create	If privilege is enabled	If privilege is enabled	No	No
- Read	Yes	If given access	No	No
- Update	Yes	If edit access	No	No
- Delete	Yes	If edit access	No	No
- Manage Permissions	Yes	If granted admin	No	No
- Submit entries / Manage entries	Yes	If given access	If given access	If given access
Dashboard				
- Create	If privilege is enabled	If privilege is enabled	No	No
- Read	Yes	If given access	If given access	If given access (Dashboard opens in Ardoq Discover)
- Update	Yes	If owner/ If edit access	No	No
- Delete	Yes	If owner/ If edit access	No	No
Reports				
- Create	Yes	Yes (can only create Advanced search based reports)	No	No
- Update	Yes	If edit access	No	No
- Delete	Yes	If granted admin	No	No
- Manage Permissions	Yes	If granted admin	No	No
- Read report description and report data	Yes	If given access	If given access	If given access
- Export report as .xls and .JSON files	Yes	If given access	If given access	No
Advanced search				
- Create Advanced search based report	Yes	Yes	No	No
- Create Advanced search query from the Analytics menu	Yes	Yes	Yes	No

	Administrator	Writer	Reader	Contributor
- Search workspace, component, and reference with Advanced search	Yes	If given access (to the queried workspaces)	If given access (to the queried workspaces)	If given access (to the queried workspaces)
Gremlin graph search				
- Create Gremlin based report	Yes	If privilege is enabled	No	No
- Create Gremlin query from the Analytics menu	Yes	If privilege is enabled	No	No
- Update Gremlin query in an existing report	Yes	If privilege is enabled	No	No
- Create and update calculated fields	Yes	If workspace admin and if privilege is enabled	No	No
- Create and update graph filters	Yes	If privilege is enabled	No	No
Broadcasts				
- Create	Yes	No	No	No
- Read	Yes	No	No	No
- Update	Yes	No	No	No
- Delete	Yes	No	No	No
- Can view broadcast report in the Broadcast overview page	Yes	No	No	No
- Can receive broadcast email	Yes	Yes	Yes	Yes
Viewpoints				
- Create	Yes	If privilege is enabled	No	No
- Read	Yes	If given access	If given access	If given access
- Update	Yes	If edit access	No	No
- Delete	Yes	If granted admin	No	No
- Lookup component in Ardoq Discover	If Access Discover privilege is enabled and if given access	If Access Discover privilege is enabled and if given access	If Access Discover privilege is enabled and if given access	If Access Discover privilege is enabled and if given access
Integrations				
Importers				
AWS importer				
* In the third party tool, user can:				
- Create objects	Yes	No	No	No
- Read objects	Yes	No	No	No
- Update objects	Yes	No	No	No
- Delete objects	Yes	No	No	No
Azure importer				
- Create objects	Yes	No	No	No
- Read objects	Yes	No	No	No
- Update objects	Yes	No	No	No
- Delete objects	Yes	No	No	No
Celonis Process Manager importer				

	Administrator	Writer	Reader	Contributor
- Create objects	Yes	No	No	No
- Read objects	Yes	No	No	No
- Update objects	Yes	No	No	No
- Delete objects	Yes	No	No	No
Entra ID importer				
- Create Configuration	Yes	No	No	No
- Read	Yes	No	No	No
- Update	Yes	No	No	No
- Delete	Yes	No	No	No
Excel importer				
- Create objects	Yes	If edit access	No	No
- Read objects	Yes	Yes	No	No
- Update objects	Yes	If edit access	No	No
- Delete objects	Yes	If edit access	No	No
Import Builder				
- Create Configuration	Yes	No	No	No
- Read	Yes	No	No	No
- Update	Yes	No	No	No
- Delete	Yes	No	No	No
IT-Pedia				
- Create Configuration	Yes	No	No	No
- Read	Yes	No	Yes	No
- Update	Yes	No	No	No
- Delete	Yes	No	No	No
Jira Software Cloud				
- Create Configuration	Yes	No	No	No
- Read	Yes	No	No	No
- Update	Yes	No	No	No
- Delete	Yes	No	No	No
JSON importer				
- Create objects	Yes	If edit access	No	No
- Read objects	Yes	Yes	No	No
- Update objects	Yes	If edit access	No	No
- Delete objects	Yes	If edit access	No	No
ServiceNow importer				
- Create objects	Yes	No	No	No

 Ardoq	Administrator	Writer	Reader	Contributor
- Read objects	Yes	No	No	No
- Update objects	Yes	No	No	No
- Delete objects	Yes	No	No	No
SharePoint importer				
- Create Configuration	Yes	No	No	No
- Read	Yes	No	No	No
- Update	Yes	No	No	No
- Delete	Yes	No	No	No
Visual importer				
* Must have relevant Lucid account permissions when importing Lucidcharts				
- Create objects	Yes	Yes	No	No
- Read objects	Yes	Yes	No	No
- Update objects	Yes	Yes	No	No
- Delete objects	N/A	N/A	N/A	N/A
Exporters				
Celonis Process Management exporter				
- Create objects	Yes	No	No	No
- Read objects	Yes	No	No	No
- Update objects	Yes	No	No	No
- Delete objects	N/A	N/A	N/A	N/A
ServiceNow exporter				
* Only read from Ardoq, but writes to ServiceNow				
- Read objects	Yes	Yes	No	No
Signavio exporter				
- Create objects	Yes	No	No	No
- Read objects	Yes	No	No	No
- Update objects	Yes	No	No	No
- Delete objects	N/A	N/A	N/A	N/A
Other Integration Services				
API Integration				
- Create access tokens	Yes	Yes	Yes	No
- Create objects	Yes	If owner/ If given access	No	No
- Read objects	Yes	If owner/ If given access	If owner/access	No
- Update objects	Yes	If owner/ If given access	No	No
- Delete objects	Yes	If owner/ If given access	No	No
Webhooks				

	Administrator	Writer	Reader	Contributor
- Create	Yes	If owner/ If given access	No	No
- Read	Yes	If owner/ If given access	If owner/access	No
- Update	Yes	If owner/ If given access	No	No
- Delete	Yes	If owner/ If given access	No	No
Document Archive (global)				
- Create	Yes	Yes	No	No
- Read	Yes	Yes	Yes	Yes
- Update	Yes	Yes	No	No
- Delete	Yes	Yes	No	No
Document Archive (Workspace)				
- Create	Yes	Workspace admin / If given access	No	No
- Read	Yes	Workspace admin / If given access	No	No
- Update	Yes	Workspace admin / If given access	No	No
- Delete	Yes	Workspace admin / If given access	No	No
Attachments (global)				
- Create	Yes	Yes	No	No
- Read	Yes	Yes	Yes	Yes
- Update	Yes	Yes	No	No
- Delete	Yes	Yes	No	No
Attachments (Workspace)				
- Create	Yes	Workspace admin / If given access	No	No
- Read	Yes	Workspace admin / If given access	If given access	If given access
- Update	Yes	Workspace admin / If given access	No	No
- Delete	Yes	Workspace admin / If given access	No	No
